 The technical team expects of customer artwork/finish, as well as that the vendor, upon inspection, can ensure and be held to the quality, capability, and cost parameters outlined below.

The customer orders from all manufacturers keep consistent artwork/quantity of price/performance. These requirements include manufacturing, materials, and construction.

The vendor, on every lot, must meet quality standards within a few days of the order and the quantity must be guaranteed for the entire lot. The product must be able to be used for the same manufacturing applications.
